ENERGY CONSERVATION TIPS FROM JIM HULL

"During two consecutive one-half hour periods in August, the College used electric power at the rate of 5,261 kilowatts. This 'one hour of power' cost us \$237.00. The cost to us for Pepco to have this power available, even for that one hour, (demand) cost us \$27,078.00. Shocking, but true!

"While a great amount of this is beyond your individual control, each of you can help minimize the cost by using power and light thoughtfully."

MIMA BRAVO SERVICE AWARD

The Department of Counseling has established a Service Award in Counseling in memory of Mima Bravo, who received her master's degree in Counseling from the Department.

The Award, which will be given to a second-year Counseling major, emphasizes service to the College and to the deaf community, as well as significant contributions to the field of counseling with the hearing impaired. This year's award will be given to a member of the class of 1979 and will be announced at the Graduation Breakfast in May.

READER RESPONSE

In a previous issue of OTG we had
asked for comments on the new look of
our campus. Babs Stevens has this
observation of our new parking situation.
"The new policy at Gallaudet is to let
your feet do the walking."
